Question No. 1

Which of the following statements regarding the device software upgrade feasibility is true?

- **A.** To ensure the stable running of network devices, you are advised to upgrade the device software in a timely manner.
- **B.** Generally, the device software upgrade does not affect the stable network running. Therefore, risk assessment and avoidance are not required before the upgrade.
- **C.** The upgrade only causes service interruption for a very short time. Therefore, you do not need to confirm with the customer about the upgrade, improving efficiency.
- **D.** Before performing a major upgrade or complex upgrade operations, you need to conduct commissioning and test the upgrade plan and contingency plan in the simulation environment.

Answer: D

Question No. 2

Which of the following items on the packing list need to be checked during unpacking and inspection?

(Multiple Choice)
