

Pass Huawei H31-161 Exam Quickly With CertificationsBuzz

Huawei certification plays an important role to open many doors of opportunities in your career. More than 90% of HR managers use **Huawei Certified ICT Expert H31-161** Dumps certification as screening or hiring criteria during the recruitment process. They give preference to hiring a certified HCIE Carrier IP (Written) V1.0 H31-161 Exam Questions candidate rather than a fresh graduate. So either you are a beginner or an experienced professional you must enrol in the HCIE H31-161 Certification Exam Dumps and try your best to pass the H31-161 Certification Exam Questions. In this way, you can easily accelerate your career and stand out from the crowd in the highly competitive market. However, it is not as simple as it is described. To pass the **HCIE Carrier IP (Written) V1.0 H31-161** Certification Exam Dumps you have to prepare well with the help of valid, updated, real **H31-161 Dumps**. Do you have a plan to pass the Huawei Certified ICT Expert H31-161 Exam Questions? Are you ready to take action? Today is the best time to take control of your career and choose the best H31-161 Exam Dumps preparation platform like CertificationsBuzz. At this platform, you will find everything that you need to learn, prepare and pass the challenging HCIE H31-161 Exam Questions in the first attempt.

The advertisement features a blue and yellow background. On the left, a dark blue rounded rectangle contains the text "PASS YOUR EXAM IN FIRST ATTEMPT WITH LATEST EXAM DUMPS" in bold yellow and white letters. Below this, a smaller dark blue rounded rectangle says "TRY FREE DEMO" in white. At the bottom left, the website "www.certificationsbuzz.com" is listed. On the right, three software boxes are shown: "PRACTICE TEST SOFTWARE", "PRACTICE TEST SOFTWARE", and "WEB-BASED PRACTICE TEST". Each box has the CertificationsBuzz logo and text indicating they are "Certification Leader in C Exams Preparation". The boxes also feature a "100% MONEY BACK GUARANTEE" and "FREE UPDATE" badge. A laptop displaying a website is visible on the rightmost box.

Top Features Of CertificationsBuzz Huawei H31-161 Exam Dumps

CertificationsBuzz is committed to offering the best way that not only aces your **HCIE Carrier IP (Written) V1.0 H31-161** Exam Dumps preparation but also enables you to pass the final Huawei Certified ICT Expert **H31-161 Questions** even on the first attempt. CertificationsBuzz has been offering its services for many years. The thousands of candidates have passed their dream HCIE H31-161 Certification Exam Dumps quickly. They all used the H31-161 Exam Practice Questions and got success in **Huawei Certified ICT Expert H31-161** Exam Dumps with flying colours. You may be the next successful candidate for the HCIE Carrier IP (Written) V1.0 H31-161 Certification Exam Questions. As far as H31-161 Exam Dumps are concerned, these real questions are designed by experienced and certified professionals. They strive their best to maintain the best quality of HCIE H31-161 Exam Practice Questions all the time. So you rest assured that with **HCIE Carrier IP (Written) V1.0 H31-161** Exam Dumps you will pass the final Huawei Certified ICT Expert H31-161

Exam Questions easily. HCIE H31-161 Exam Dumps are categorized into three easy to use and compatible formats. These formats are **Huawei Certified ICT Expert H31-161** Dumps PDF file, H31-161 Desktop Practice Test Software and HCIE H31-161 Web-Based Practice Exam. All these formats come with some unique and common features. Let's talk one by one about the top features of HCIE Carrier IP (Written) V1.0 H31-161 Exam Questions formats.

CertificationsBuzz Huawei H31-161 Desktop Practice Test Software:

Huawei Certified ICT Expert H31-161 Desktop Practice Test Software is a mock HCIE Carrier IP (Written) V1.0 H31-161 Exam Practice Questions that are designed to provide real-time **HCIE Carrier IP (Written) V1.0 H31-161** Exam Dumps experience. HCIE H31-161 Desktop Practice Test Software is user friendly and compatible software. You do 'not need any special software or driver to install H31-161 Desktop Practice Test Software. Just download and start your **Huawei Certified ICT Expert H31-161** Exam Practice Questions preparation.

CertificationsBuzz Huawei H31-161 Web-based Practice Test Software:

HCIE Carrier IP (Written) V1.0 H31-161 Web-Based Practice Test Software is a browser-based application that is compatible with all latest browsers such as Safari, Opera, Chrome and Firefox etc. To run this application you just need to download **Huawei Certified ICT Expert H31-161** Web-Based Practice Exam Software and then put a link into any popular browser and start your HCIE H31-161 Practice Test preparation. Now with **HCIE Carrier IP (Written) V1.0 H31-161** Web-Based Practice Test Software, you can start your H31-161 Practice Exam preparation anytime and anywhere. and pass your dream **Huawei Certification Exam** easily.

CertificationsBuzz Huawei H31-161 Dumps In PDF Format:

Huawei Certified ICT Expert H31-161 PDF Practice Questions are the most wanted product of CertificationsBuzz. In this PDF file all valid, updated and real **HCIE Carrier IP (Written) V1.0 H31-161** Exam Dumps are included. The CertificationsBuzz H31-161 PDF Dumps are the real questions that will be repeated in the final H31-161 Exam Questions. You just need to download it after payment and start your Huawei Certified ICT Expert H31-161 Exam Dumps preparation. To run the HCIE Carrier IP (Written) V1.0 H31-161 PDF Questions file you do not need any special software or driver. Just get the H31-161 PDF Dumps and start your HCIE H31-161 Exam Questions preparation journey instantly. Today is the right time to take action and control your career. To do this just enrol in the HCIE Carrier IP (Written) V1.0 H31-161 Exam Dumps and download **Huawei Certified ICT Expert H31-161** Exam Practice Questions and start your preparation. Best of luck.

Question No. 1

On the MPLS Layer 3 VPN, PE security is key to the safety of the entire network. Which of the following security measures can be deployed on PEs?

- **A.** PE-CE route protocol authentication
- **B.** VRF route capacity limitation
- **C.** uRPF
- **D.** Filter all CE packets that use the VRF interface address as the destination address based on the ACL rule.

Answer: A, B, C

Question No. 2

On the typical access network of a bearer network, a core network device connects to two upstream CEs. CEs connect to PEs in a square shape. This access network must bear voice and signaling services. A CE must be configured with two VPNs to separate the voice and signaling services and ensure high security and QoS. The signaling service works in active/standby mode, and the voice service works in load sharing mode. The VRRP must be enabled between the CEs to terminate the signaling flow. If the network robustness is ensured and the network architecture is rational, which of the following statements about the topological structure are true?

- **A.** The voice service must be carried by GE links and the signaling service must be carried by FE links.
- **B.** Instead of POS links, GE links are recommended between CEs and PEs.
- **C.** The total link bandwidth between CEs cannot be less than that between CEs and PEs.
- **D.** GE and FE links need to be used as the Eth-trunk between CEs to improve reliability.

Answer: A, B, C

Question No. 3

On a city's dual-plane bearer network, PE1-A and PE1-B are two PEs in different planes of the city. Three CEs are on the same VPN. The OSPF is used to exchange VPN route information between CE 1 and PE1-A and between CE 2 and PE1-B. The default route leading to PE1-A is configured on CE 3, and a static route leading to CE 3 is configured on PE1-

- **A.** The static route is imported to the OSPF, and the OSPF route is imported to the VPN instance of the BGP. The MP-IBGP neighbor relationship is established among the PEs. Subinterfaces are enabled in the links between PEs and are bound to the same VPN to exchange VPN route information between PEs. How many routes on PE1-B can reach CE 3?
- **A.** Only one (The route leading to CE 3 is learned based on the IBGP neighbor relationship between PEs. The other route is filtered out by OSPF loopback detection.)
- **B.** Two (One route is learned based on the IBGP neighbor relationship between PEs, and the

other one is the OSPF category-5 route.)

- C. No route
- D. Only the OSPF category-5 route can reach CE 3.

Answer: C

Question No. 4

In the access architecture of an IP bearer network, the OSPF protocol is enabled between two access routers, two firewalls (in transparent mode), and two Layer 3 switches. Softswitches work in active/standby mode. VRRP is enabled between the softswitches to provide a gateway. In normal cases, SW1 is the master router and SW2 is the backup router. Considering the reliability of the access network, how would you plan the cost value of each link in the OSPF area?

- A. $a=b=c=d$
- B. $c>a+b+d$
- C. $d>a+b+c$
- D. $a=b>c=d$

Answer: C

Question No. 5

Which of the following statements about the Dynamic Host Configuration Protocol (DHCP) snooping function are true?

- A. It prevents DHCP starvation attacks.
- B. It prevents fake DHCP server attacks.
- C. It prevents Mac Flood attacks.
- D. It prevents denial-of-service (Dos) attacks from changing the CHADDR value

Answer: A, B, D
